Winter has so much more on offer than just skiing ...

A winter holiday should not be limited to only skiing, this region has so much to offer.

You feel like trying some other sports?

The Parc Régional du Queyras has a broad range of cross country ski slopes as well as snow shoe hiking paths.

A ride on a dog sled will surely provide an unforgettable experience.

Head off cross country skiing with an experienced guide, and discover picturesque corners of the regional parc. An exhausting climb to the summits, followed by a unique descent in untouched snow, through breathtaking landscapes and with gorgeous views.

Are you more tempted by a day of "farniente"? Our garden facing south with deckchairs invites you to read, relax and just submerge in the silence of our valley. A valley in a region that is proud to offer 300 days of sunshine a year.

Why not explore spring or autumn?

Spring and autumn are just wonderful in our valley.

In spring, nature awakens with an overwhelming quantity of flowers, a steelblue sky and a very agreeable sun.

In autumn, the explosion of colours is just breathtaking, like a real "Indian Summer". The sounds of nature become more soft, almost tempered, you can hear that nature is preparing itself to go to sleep for winter.

Two seasons that are ideal to come and discover our region, and the two natural parcs, the Parc des Ecrins and the Parc du Queyras.
